# Substance Abuse Prevention App (S.A.P)

Presented by Be Proud Foundation & Bestcore Arts & Technology Innovation Inc.

# What is S.O.S?

# Our Solution to Substance Abuse Education

An Android and iOS mobile application where students can follow the latest news released by their school as well as learn about the various dangerous substances and their effects.

# HB-1190: Creating a School-Based Substance Abuse Prevention and Intervention Program

## School News Feed

S.O.S's school news feed creates an ideal platform that allows schools to publish the latest school news as well as promote various programs that the school offers in the mission of substance abuse prevention and intervention.

The Delaware County Workforce Development (DCWDB) in partnership with the Chester Upland School District is pursuing a grant for "Teacher in the Workplace". This paid opportunity for the teachers and administrators, immerses them into a workplace environment for the duration of one week during the summer.

The one week teacher experience will be from June 1st through June 30th in which the teachers must complete a forty (40) hour experience in the workplace. Teachers will be given direct opportunities to experience the workplace environment on different levels within an organization.

### The opportunity will enhance the

SB-1013: Enhancing Substance Abuse Prevention Education in Schools

# Substance Facts

Under the Substance tab of the S.O.S app students can learn about various substances and their damaging effects.

### What are alcohol use disorders?

Alcohol use disorders (AUDs) are medical conditions that doctors diagnose when someone's drinking causes them distress or harm.

### What is a standard drink?

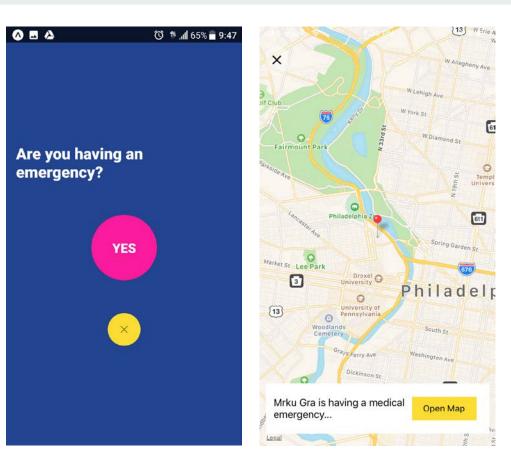

Many people are surprised to learn what counts as a drink. The amount of liquid in your glass, can, or bottle is not necessarily equal to how much alcohol is in your drink. A

# **Emergency Beacon**

Under the Substance tab you will find an emergency option. The emergency option will allow for a student who is having a medical emergency to send an alert to their emergency contact list with their GPS location. Each member on their contact list will receive a push notification that will open a map showing their position. That contact can then open the location in their phone's native map and get directions.
